PROJECTS

Background Blender [\[Website Link\]](#) [\[Github Link\]](#)

A background blend mode sandbox that pulls random photos from an external API and blends them with a specified color.

Name Diviner [\[Website Link\]](#) [\[Github Link\]](#)

An app that uses 3rd party API data to make predictions about a person based on their name.

Pizza Box [\[Website Link\]](#) [\[Github Link\]](#)

A static product demo webpage for a fictional vending machine, meant to showcase layout and design using only HTML and CSS.

Technical Documentation [\[Website Link\]](#) [\[Github Link\]](#)

A layout reimagining / improvement of a CSS Tricks documentation page. Implements a Dark Mode using Vanilla Javascript.

WORK EXPERIENCE

City College of San Francisco

Librarian | 2017 - Present

San Francisco, CA

- Answered hundreds of reference questions a year and taught library classes at a busy community college library
- Part of the book purchasing team for Computer Networking and Computer Science disciplines
- Helped plan the library's 3D printing lab

Alcohol Research Group

Librarian | 2016 - 2018

Emeryville, CA

- Librarian responsible for a collection of 60,000+ items
- Implemented a library database system to replace one that had become obsolete
- Selected, trained, and oversaw the work of a library assistant

San Francisco State University

Librarian | 2014 - 2016

San Francisco, CA

- Was the library liaison supporting the campus's new 3D printing lab
- Taught over a dozen library classes a semester and staffed a busy reference desk that received thousands of in-person and instant message questions a year
- Used Camtasia screen recording software to produce numerous library instructional videos for students
